

EAST COAST POOLS

INTO INFINITY

A SPECTACULAR POOL WITH EXCEPTIONAL VIEWS

When a property is blessed with spectacular views, it's only natural that the homeowners would want to make the most of the natural beauty available to them, as was the case with the featured property.

Situated atop a hill with ocean vistas, the homeowners enlisted East Coast Pools to create the spectacular infinity-edge pool. With a wealth of experience, the competent East Coast Pools team exceeded the homeowners' expectations.

With its wet-edge, the pool is a modern masterpiece. The infinity-edge seemingly disappears into the rolling surrounds, while the pool's royal blue, fully-tiled interior mimics the ocean in the distance.

The light-coloured stone paving and coping surrounding the pool creates a striking contrast, while the decking adjacent to the pool adds a natural aesthetic and ties in with the bushy landscape.

The raised spa is pure luxury, elevating swimmers above the views while providing the perfect spot to relax and take in the natural beauty. To ensure the pool is ideal for the whole family, a swim-out entrance was installed. This feature is ideal for children, as it provides a safe wading area for them to play.

Established in 2001 by Colin Sloggett, East Coast Pools offers its clients a commitment to quality, service and attentive project management. The team ensures every project it undertakes looks as good as it performs. Employing quality, state-of-the-art materials and techniques, East Coast Pools can design and construct your dream swimming pool and spa, paying careful attention to every single detail from the initial concept to the final product.

With more than 25 years of experience in swimming pool and landscape construction and a reputation for quality, the team at East Coast Pools will create the pool of your dreams, ensuring it is the perfect addition to any home and lifestyle.
